Corner Canal and Royal structure. WILCOX & GIBBS' 1st. The Superiority of their construction.
2d. Their noiseless motion; hardly perceptible in Jan 16d6m 2d. Their noiseless motion; hardly perceptible in a large room.

3d. Their utility, performing all kinds, of sewing in the neatest and strongest manner.

4th. The needles cannot be set wrong, hence do not break, as do others.

5th. They do not gut out of repair, or require frequent expenditures for "new improvements."

6t. Their economy; consisting not more than one-half the price of inferior machines.

7th. Their popularity, which is the best indication of their worth; they are now disposed of readition every city in Europe, superseding every Sewing Machine, hitherto in use.

8th. They perform their work with regularity and strength, without a false stitch or break, so frequent with others, and can be managed and made to work by a child.

It needs but a trial of these beautiful and simple Sewing Machines, to convince the most akeptical of their superiority over all others manufactured.
